

A Common Sense **Turn-Key** Solution for a Complex Problem

**A Powerful Solution for
Insurance companies, Law firms, Corporations and Organizations World wide**

Our Goal: Is to help our client's to be compliant, mitigate their risk and that of their customers, employees and business while saving them money with our **"Turn-Key Data Breach Response Services Solution"**

Notification Letter

Our 24/7 Printing and Mailing facilities will manage and assist you with letter template/s, translation services for Notification letters that require more than (1) language, data collection and file merging, NCOA service, domestic and international mail, return mail processing, reporting and other unique options which have been of great value for our client's ability to manage their breach incident.

Customer Assistance

Experience, Guidance, Support and Reporting are key factors to assure that breach response calls are accurately addressed and articulated to the caller in professional manner. Our CSR's are bi-lingual. We will help and assist in your FAQ's. We assist in translation scripting if needed.

First Watch ID Monitoring

Our unique and proprietary methodology proactively searches a wide variety of data sources to detect the early stages of identity theft. This novel approach enables us to detect serious, costly crimes such as "Identity Assumption" and "Synthetic Identity Theft," which go well beyond simple credit card fraud.

Detecting and preventing these crimes with First Watch ID Monitoring before they progress means protecting affected individuals from potential IRS fraud, dangerous medical fraud or even false imprisonment.

It seems that no matter what security protocols are established, the human element and equipment failures will guaranty breach incidents for the foreseeable future. Given this environment, it is imperative to have your breach security include the necessary follow up procedures to protect your firm and clients in the event of a breach. Give us a call.

IBC has built a unique team of experts that can provide superior service, in a turnkey format and at an extremely competitive price.
